Description

The Gripforce SP4 safety screwdriver is designed specifically for handling dual-end spanner screws (also known as 'snake eye'). Its two-pronged system fits precisely into the screw head holes, making unauthorized handling difficult. It is an essential manual tool for maintenance and safety work in urban furniture, public toilets, elevators, signage and electronic equipment.

Technical characteristics

- Material: Chromium-vanadium and molybdenum steel (CR-V-MO)
- Length of rod: 10 cm
- Tip type: SP4 (reduced size for small screws)
- Finished: Chrome for corrosion protection
- Magnetic tip: Holds the screw during placement
- Mango: Thermoplastic material in black and blue with top non-slip zone

The CR-V-MO steel construction ensures high torque resistance, preventing the tip from wearing out or rounding even after continuous use. The chrome finish facilitates cleaning and protects the metal. The magnetic tip allows working with a single hand in hard-to-reach spaces, while the ergonomic handle improves control and reduces fatigue during prolonged tasks.

Specifications

Colour	Negro / azul
EAN	8445187480658
Manufacturer	COFAN
Long	10 cm
Material	Acero cromo vanadio
