Description

The IFAM lock model K-30 (reference 013010) is a safety lock made of brass, designed for the protection of doors, cabinets and accesses that require a reliable and corrosion resistant mechanism. Its metal construction guarantees durability in interior environments.

Technical characteristics

- Mark: IFAM
- Model: K-30
- Product code: 013010
- Material: Brass

This lock offers a basic but effective solution to secure fixed or mobile elements. The use of brass provides good natural resistance to rust, maintaining its structural integrity without the need for additional complex treatments.

Specifications

EAN	8420078981216
