Description

The BAHCO double clamped pipe key model 708-26 is a manual tool specifically designed for the adjustment and disassembly of pipes and threaded connections. Its angled design allows optimal access in small spaces, facilitating the intervention where the straight keys do not fit.

Technical characteristics

- Mark: BAHCO
- Type: Double clamped pipe wrench
- Adjustment measure: 26 mm
- Product code: 708-26

This tool combines two measurements in a single instrument, optimizing working time by avoiding constant key change. Robust construction ensures durability under normal professional use.

Specifications

Long	26 mm
