Plug Base bipolar

Series **Simon 100**[View product online](#)**Description**

SIMON 100 - plug Base bipolar 10000431-039 Base plug bipolar 16A and 250V~ with system embornamiento a click of the series, Simon 100. It is totally suitable for recessing in a surface universal. It can operate at maximum performance at temperatures between 0 and 40 ° c due to the characteristics of the materials used in their manufacture: metallic components of thermoplastic insulation and halogen-free. It is compatible with the framework Simon 100 for installations easy, its mechanism of embornamiento in a click makes it very easy to be able to install it and make it work in the shortest possible time. Simon 100 decides to rethink the nature of the switches and find a new approximation from the logic. Search that culminates with a mechanism developed to facilitate their usability and ease of installation. The mechanisms presented in the system of embornado 1 click, a revolution in terms of safety, ease of installation and speed. The willingness to rethink each item to facilitate its installation, the new design of the plug base takes advantage of the spaces and the search automatically. More information about the series Simon 100 Simon 100 born with the aim to simplify the life of the people. Its main feature is the usability, which is designed to facilitate the users interaction with it. It is a revolutionary line in terms of usability, aesthetic innovation and technical as it is the first interface with drive by press to be used with the hand. Its key horizontal drive pulse allow a surface interaction maximum, always the same size and with the same drive. In addition to the provision of a matrix of keys is more intuitive and easy to remember.
