

## Product sheet

## Presence detector 230v SIMON 27342-31

Brand: SIMON

Reference: SIMON 27342-31

The 230V SIMON 27342-31 presence detector is the perfect solution for automating lighting systems and controlling electrical appliances. This device uses cutting-edge technology to detect the presence of people in a specific area, allowing connected devices to be activated or deactivated as needed, resulting in significant energy savings.

- **Advanced technology:** Equipped with the latest presence detection technology for optimal performance.
- **Compatibility:** Works perfectly with standard 230V electrical systems.
- **Adjustable sensitivity:** Allows detection sensitivity to be adjusted according to the specific needs of the environment.
- **Energy savings:** Contributes to reducing electricity consumption by automatically turning off devices when no presence is detected.
- **Easy installation:** Easy to install and compatible with a variety of residential and commercial environments.

Don't miss the opportunity to incorporate the 230V SIMON 27342-31 presence detector into your electrical system. Start enjoying the comfort and efficiency offered by this innovative technology!
