Description

Have control over a mechanism allows us to implement it in a simple way when we want to without making any physical effort. For example, if we speak of a system of electronic blinds, the Group of two push-buttons for shutters 10 A-250V~ without locking and with embornamiento fast finish ivory series Simon 27 Play is ideal for this purpose. The push-button (45x45 mm) includes engraving of up/down blinds, being its functioning rocker.
