Surface Base for 2 elements vertical Simon 44 Aqua

[View product online](#)**Description**

In Simon we have this base surface for two elements of the range Simon 44 Aqua. It is made with high quality material, as the rest of the components of this series. In that sense, the product used for the design of the model Simon 44 Aqua is based on plastic. But this is not ordinary plastic, but of material that has been endowed with the ability to withstand higher temperatures than normal, opting for security at the end result.

Base enclosure gray 2 elements vertical Simon 44 Aqua 4400763-035

The series of mechanisms **Simon 44 aqua**, is the range of electrical mechanisms manufactured to adverse environments or with exposure to water and dust. This series is characterized by its IP55 protection, which makes it ideal for applications garden, terrace, parking, kitchens, sinks, industrial or even sports facilities.

In addition, Simon has also designed in the aesthetic, and Simon 44 Aqua is available with keys in colors:

- Grey
- Red
- Pistachio

- Aluminum

This series of mechanisms used inside the mechanism of the series Simon 27. This mechanism, to be integrated in the inside of the box and lid, is fully protected.

You can purchase this mechanism in the following ways:

- Monoblock
- Box with lid + mechanisms
- Recessing frame or surface + cover + mechanisms
