Key double group switch + push-button aluminum cold SIMON 82 DETAIL 82027-93

The series of mechanisms Simon 82 detail, has an additional color to fit to the frames, this is the aluminum color cold. A color that is very technical, timeless, that fits a multitude of designs and different environments.

The key double for group of 1 switch and 1 pushbutton with engraved bell aluminum cold Simon 82 is a stylish option and avant-garde. The original line, inspired by the graphite and the aluminum brings its own identity without sacrificing the benefits that are more demanding.

Its design is a detail of good taste and quality. Manufactured in thermoplastic material metallic, with engraved bell, with a clean lines and light. Easy installation and maintenance with a few simple and safe steps. Suitable for recessed in wall and use on the surface.

The combination of the various elements of the series such as frames and profiles, gives as a result different options that give character to a space and make a difference. It is recommended to use a soft, dry cloth for cleaning. The safety, the efficiency and the design allow to combine different functionalities in a single element and, thus, to get spaces more clean and open
