Description

Description

To perform the installation of a plate it is necessary to place a box in the wall or wall where later we will set the plate.
For those cases where it is not desired or cannot be practicing for a hole in the wall for the recessed box (facades of marble, stone, etc), it is recommended to use a surface box.
The depth is of only 33mm., and its design integrates perfectly to the aesthetic of the plate. In case of combining several plates, you are not required to use the set of spacers.
Available in all series. Select the box of the series is necessary, according to the case.

Specifications

SERIES 9
Measures: 130x436,5x33 mm (horizontal-vertical-depth).

Weight: 0,59105 kg
