Description

The New plate SKYLINE entryphone and video entryphone, which is a plate-robust and elegant, which stands out for its durability and beauty, strength and reliability.

SKYLINE is the new line of plates of street of door phone and video door profile continuous and modular composition of Fermax. The line consists of 8 frames of different sizes which will easily fit the different modules: push buttons, card holder, camera, amplifier, access control, etc., frames enable you to add a certain number of modules. There are two module sizes: V and W. The modules W measure the double modules V.

Measures Modules.

- Module V: 105,2x47,5 mm (width-height).
- Module W: 105,2x95 mm (width-height).

It is possible to combine two or more plates, provided that they are of the same series, to have a greater capacity for pushbutton and accessories.
