Description

Description

To perform the installation of a plate it is necessary to place a box in the wall or wall where later we will set the plate.
Boxes recessed are manufactured in aluminium and zamak. They feature a hinge folding in any respect, which allow you to attach the plate while performing the wiring. Have a few swirl marks cut into the bottom of the box, which is made holes with a light blow or pressure, thus allowing the passage of the cables.
In the case that combining several plates, always of the same series, it is necessary to use a set of spacers for a perfect fit. One set is required for each additional plate that is installed between the housings of recessed.
Available in all series. Select the box of the series is necessary, according to the case.

Specifications

SERIES 7
Measures: 115x328x 45 mm (horizontal-vertical-depth).
