Description

Revalco 1 Pole+Neutral Magnetothermal Switch 25A (narrow)

- Revalco brand thermal magneto switch, designed to protect electrical circuits from overloads and short circuits.
- 1 pole + neutral model with a current capacity of 25 amps, ideal for low and medium power applications.
- Narrow size that facilitates installation in electrical panels with limited space.
- Built with high quality materials that guarantee its durability and reliability in operation.
- It has an automatic trip mechanism that disconnects the circuit if an electrical anomaly is detected.
- Indicated for use in domestic, commercial and industrial installations where effective and safe protection is required.
- Complies with current electrical safety regulations and standards, ensuring correct operation at all times.
